FATF Statement
26 June 2009

IRAN

The FATF remains concerned by Iran's failure to meaningfully address the ongoing and substantial deficiencies in its anti-money laundering and combating the financing of terrorism (AML/CFT) regime. The FATF remains particularly concerned about Iran's failure to address the risk of terrorist financing and the serious threat this poses to the integrity of the international financial system. The FATF urges Iran to immediately and meaningfully address its AML/CFT deficiencies, in particular by criminalising terrorist financing and effectively implementing suspicious transaction reporting (STR) requirements.

The FATF reaffirms its call on members and urges all jurisdictions to advise their financial institutions to give special attention to business relationships and transactions with Iran, including Iranian companies and financial institutions. In addition to enhanced scrutiny, the FATF reaffirms its 25 February 2009 call on its members and urges all jurisdictions to apply effective counter-measures to protect their financial sectors from money laundering and financing of terrorism (ML/FT) risks emanating from Iran. FATF continues to urge jurisdictions to protect against correspondent relationships being used to bypass or evade counter-measures and risk mitigation practices, and to take into account ML/FT risks when considering requests by Iranian financial institutions to open branches and subsidiaries in their jurisdiction.

The FATF remains prepared to engage directly in assisting Iran to address its AML/CFT deficiencies, including through the FATF Secretariat.

UZBEKISTAN

The FATF welcomes the significant recent steps that Uzbekistan has taken to restore and strengthen its AML/CFT regime and takes note of the action plan for further steps that it has articulated. FATF urges Uzbekistan to continue its progress towards completing its legislative framework and implementing an AML/CFT regime that meets international standards. Given that implementing regulations are not yet enacted, the FATF reiterates its statement of 16 October 2008.

TURKMENISTAN

The FATF welcomes Turkmenistan's recent progress in adopting AML/CFT legislation. Given that deficiencies remain in Turkmenistan's AML/CFT regime, FATF reiterates its 25 February 2009 statement informing financial institutions that these deficiencies constitute an ML/FT vulnerability in the international financial system and that they should take appropriate measures to address this risk. Turkmenistan is urged to continue to take steps to implement an AML/CFT regime that meets international AML/CFT standards. Turkmenistan is strongly encouraged to continue to work closely with the Eurasian Group and the International Monetary Fund to achieve this.

PAKISTAN

The FATF welcomes Pakistan's recent accession to the International Convention for the Suppression of the Financing of Terrorism. However, the FATF remains concerned about the ML/FT risks posed by Pakistan and reaffirms its public statement of 28 February 2008 regarding these risks. The FATF welcomes the process underway in
