About National Housing Bank

The National Housing Bank (NHB) was set up in July 1988, under an Act of the Parliament to operate as a principal agency to promote housing finance institutions both at local and regional levels and to provide financial and other support to such institutions and for matters connected therewith or incidental thereto. The main roles of NHB include supervision, financing, promotion and development. Among the multiple responsibilities entrusted to NHB, the development of human resources is a major agenda of the Bank. Accordingly, the Bank has sought to address this partially through training programmes, seminars and symposia on matters related to housing for the officials of the Housing Finance Companies (HFCs), Commercial Banks and Public Housing Agencies.

Need and Objective of the Programme

The foremost among the challenges faced by Financial Institutions today is that of understanding and managing risk. Risk is not simply the incidence of adverse outcomes. The favourable outcomes which cannot be predicted are also a form of risk. Opportunity losses can be as important as actual losses.

Mortgage lending operations in India have special characteristics associated with them including liability management, affordability issues, foreclosure laws etc. The importance of bringing about better refinement and sophistication in identification, measurement and management of risk is the order of the day for gaining competitive advantage. The management of HFCs/Banks are to base their business decisions on a dynamic and integrated risk management system and need to address these risks in a structured manner by upgrading their risk management. The two day residential program on "Risk Management" endeavours to engage with middle and senior level officers of Banks and HFCs on the various types of risks in the housing finance industry and their mitigation techniques. The main programme content is outlined below.

Programme Content

- Overview and Characteristics of Risks in Mortgage lending
- Improving Operational Risk Management
- Approaches to Credit Risk Assessment
- Liquidity Risk Management and ALM including MIS Reporting
- Risk Characteristics of Housing Loan

**Training Programme on
