Request for proposal (RFP) for Procurement and Implementation of Automated Data Flow (ADF) & Support Services

S. No.	Page #	Point / Clause #	Context	Clarification
1	36	7.4. Technical Bids – S.No1	Number of years of experience of the Firm in implementing MIS/ADF solutions	In-lines with MEC, the text may be read as: Number of years of experience of the Firm in implementing MIS/ADF solutions or Enterprise-wide real-time data ingestion and integrated reporting solution
2	36	7.4. Technical Bids – S.No 2	2. List of Clients where Centralized MIS/ADF implementations are carried out	In-lines with MEC, the text may be read as: List of Clients where Centralized MIS/ADF/ Enterprise-wide real-time data ingestion and integrated reporting solution implementations are carried out"
3	23	4.3. Statement of Work:	vii. Based on ADF data captured, the selected bidder will enable/implement generation of various EWS (Early Warning Signals) reports through a user interface, as per requirement of the Bank.	It is to clarify Bank does not have existing EWS. As per RFP, ADF implementation includes generation of EWS reporting through a user interface as per requirement of Bank.

4	30	4.5.6.Solution Sizing and Scalability Requirements:		<p>It is to clarify that solution requirements have been laid down in the RFP. Vendor has to size the hardware suitably to meet the requirements of ADF implementation. PI refer RFP for detailed requirements.</p> <p>It is to clarify that Evaluation methodology Parameter w.r.t. “presentation of proposed ADF solution” has already been provisioned in RFP to facilitate/provide fair opportunity to bidders to showcase the proposed solution.</p>
